committing genocide, and with Israel restricting desperately needed **food, aid**, and relief to the **starving** population of 2 million Palestinian refugees in Gaza, the Biden administration cut funding to **UNRWA**, the UN agency providing relief. Throughout his long career and especially in the past four months, Joe Biden has made the United States complicit in the genocide of the Palestinian people.

**For far too long, our unions have supported elected officials and political parties that serve violent corporations and the billionaire class.** They have both exploited workers in the U.S. and they continue to fund mass militarism, murder, and illegal wars across the world. This genocide is where it ends.

We, as union members and staff of SEIU, in solidarity with the tradition of trade union activism and workers across the globe, take a principled stand against genocide and for the liberation of the Palestinian people. ***We call on SEIU and our local unions to publicly rescind the endorsement of Joe Biden for President until he meets ALL of the following demands:***

1. **Demand an end to the genocide and immediate ceasefire in Gaza**
2. **Immediately end all **weapons delivery and military funding** to the Israeli government, both now and in the future**
3. **Immediately **restore and increase funding for UNRWA****
4. **Demand an end to the blockade and siege of Gaza, allowing for the free flow of aid and travel, and demand a completion of the terms of a prisoner exchange**
