

# UAW International: DROP ISRAEL BONDS

**UAW DIVEST FROM GENOCIDE**

**The United Auto Workers International holds over \$400,000 in Israel military bonds. As UAW members we demand they divest.**

Our union is a global beacon of solidarity and worker power. We were one of the first major unions to call for a ceasefire in Gaza, and an arms embargo on Israel. Thousands of our Arab members are impacted directly by the genocide. All of us are touched by US policy which has sent \$17 billion US tax dollars to Israel this past year, all while we lack healthcare, robust free public education. In 1974, workers at UAW local 600 staged a one-day walkout in Dearborn which successfully pushed the IEB to divest from Israel bonds. UAW must again take a clear stand in support of human rights, justice, and our members wellbeing. The UAW Arab Caucus and UAW Labor for Palestine are calling on the IEB to divest.

**Join us in emailing the UAW International Executive Board. Tell them to divest from Israel bonds.**
