Jubilee School: Fund Healthcare, Not Genocide with Healthcare Workers for Palestine

Nov 20, 2024

8:00 pm - 9:30 pm EST

Our healthcare system is killing us. Millions in the U.S. are in medical debt and thousands die each year from lack of access to healthcare, insured or not. The financialization and bloated admin costs of the medical industrial complex mean we all pay more while the quality of care declines and healthcare working conditions worsen. Yet nothing seems to change.

Meanwhile, the U.S. sends billions of dollars a year to Israel for tools of death and destruction. And for over a year now, we have watched as those weapons have been used to carry out a genocide on the Palestinian people and an all-out attack on the healthcare system in Gaza and the Occupied Territories.

These things are all interconnected.

Join us for a Jubilee School with Healthcare Workers For Palestine on **Wednesday, November 20, 2024 at 8PM ET / 5PM PT**. We will discuss the state of the health systems here and in Palestine and hear healthcare workers' personal experiences. We'll dig into the ways that these systems are tied to each other and how we can fight for liberation from the powers that facilitate violence both at home and abroad.
