

CWA & All US Labor Must Act NOW To Stop The Genocide In Gaza

Join The International Labor Campaign To Defend Palestinian Workers & Their Families

Meeting
Sunday, August 10, 2025
7:00 PM

At: Courtyard Hotel, Monongahela Room
945 Penn St., Pittsburgh, PA
All are invited to participate

Israel's genocidal policies including forced starvation in Gaza and the ethnic cleansing of Palestine is a labor issue. At this year's CWA Convention, rank and file members from CWA locals nationwide are presenting resolutions to end labor complicity with genocide and we urge all delegates to support these resolutions. <https://cwa4p.org/>

The fascist Trump government is not only backing the genocide but is also targeting Medicare, our universities, our Free Speech, our unions and the entire labor movement destroying the NLRB, EEOC, OSHA, EPA and now even the Corporation for Public Broadcasting that were all set up to serve, educate, defend and inform workers and the people of this country.

Among the tens of thousands of civilian deaths by bombings in Gaza and those dying of starvation:

- * Over 200 Palestinian journalists have been targeted and murdered by the IDF in under two years, the largest press casualty rate in the history of journalism.

- * More than 1000 Palestinian healthcare workers have been massacred since October 7th and more are killed every day. Those still working are fainting from ex-

haustion and starvation. 400 more are detained and being tortured by Israel.

- * Telecom workers in Gaza risk their lives under bombings and sniper fire to keep the people of Gaza connected to the world so their cries for justice and humanitarian aid can be heard.

Speakers:

Ed Grystar, past president of the Butler Co (PA) CLC and with Single Payer National Campaign

Sami Ahmad, MD/PhD candidate at the University of Pittsburgh School of Medicine

Dan Kovalik, former USW Associate General Counsel and labor & human rights activist

Steve Zeltzer, member of Pacific Media Workers Guild, News Guild-CWA, producer of Work Week and with Pacifica Network

Elizabeth Milos, member of UPTE-CWA 9119 and UPTE Members For Palestine & Spanish medical interpreter at University of California San Francisco

Lets demand an end to the genocide in Gaza
An injury to one is really an injury to us all

Sponsored by: CWA Members For Palestine & Workers Power, UPTE Members For Palestine, Labor Video Project, WorkWeek, United Front Committee For A Labor Party
