

## Stop the War Now!

Association of Legal Advocates and Attorneys-UAW Local 2325

April 14, 2026

The Association of Legal Advocates and Attorneys-UAW Local 2325 unequivocally condemns the rapidly expanding US-Israel war against Iran, Lebanon, Palestine, and throughout the region.

1. **This is a naked war of aggression and terror that reflects decades of bipartisan US imperialism in the Global South to extract natural resources and terrorize the working class.** The US-Israel attacks have already crippled vital infrastructure and killed thousands of people. It is being conducted by the same war criminals that have genocided at least 100,000 Palestinians in Gaza since October 7, 2023; who have bombed millions to “liberate” Afghanistan, Iraq, Libya, Lebanon, Syria, Yemen, Somalia, and Nigeria; who are carrying out aggression across the Americas with military intervention in Venezuela and economic warfare against Cuba; and who are waging a fascist wave of terror at home against migrants, complete with mass abductions, concentration camps, deportations, and the murder of abductees, detainees, and anti-ICE protesters.
2. **We stand in solidarity with Iranian workers against war and repression.** As the [International Alliance of Support for Workers in Iran points out](#): "The message of independent trade unions and labour activists in Iran is unwavering: Workers are not expendable. By rejecting both external aggression and internal repression, they point toward a future based on peace, justice, freedom, equality, and self-determination—built from below through the collective power of the working class and all oppressed people."
3. **The war is an extension of the Nakba.** Israel has seized on the war against Iran as an opportunity to bomb, invade, and occupy Lebanon, in pursuit of its long-term project of territorial expansion known as the “Greater Israel” project. At the same time, Israel

continues to expand eight decades of Zionist ethnic cleansing—the ongoing Nakba—by intensifying anti-Palestinian pogroms in the West Bank and relentless genocide in Gaza.

4. **Imperialist bombs dropped abroad also fall at home.** The war on Iran is a massive attack on the entire working class. While racism, unemployment, homelessness, cost of living, food insecurity, union-busting, deportations, and repression soar at home, US troops are being sent thousands of miles to kill and die for oil executives, weapons contractors, the billionaire class, and Israeli settler colonialism. The \$1+ billion a day it costs to bomb Iran—including \$2+ million for the Tomahawk missile that massacred 165 children at Shajareh Tayyebah elementary school—should be spent instead on building just, sustainable societies at home and abroad. **No one is “liberated” by imperialist war**
5. **We need workers’ action now.** Protest rallies are essential, but are not enough to stop war, rising fascism, and crisis dragging the entire world toward disaster. Echoing workers in Europe and North Africa who have gone on strike against the genocide in Gaza, we must use our power—in the streets, in our unions, in our workplaces, and in the military—to build an anti-imperialist united front in support of a general strike, and calls from [Minneapolis](#), [May Day Strong](#), and many others, for No Work, No School, No Shopping on May Day 2026.
6. **Justice demands.** As Dr. Martin Luther King Jr. [famously said](#) during the Vietnam war, “The greatest purveyor of violence in the world today is my own government. I cannot remain silent.” In that same spirit, we demand:
  - **No war on Iran!**
  - **End Israeli Genocide—Arms Embargo Now!**
  - **US hands off Venezuela and Cuba!**
  - **Abolish ICE—Mass Amnesty Now!**
  - **Money for Jobs, Food, Housing, Education, and Healthcare, Not for War!**
